

The Gangway 1800

Applied Composites' carbon fibre Gangway 1800 is designed for comfortable boarding of any mid-size yacht in a floating marina or a jetty. It can be easily deployed by one person, and safely fastened to the boat. It can also be taken with the boat on your journey or while racing, and used on visits to other clubs.

Gangway 1800's Key Features:

- Light weight - at 4.3 kg it can be taken with the boat anytime and anywhere.
- Overall length of 1800 x 320 mm for easy boarding.
- The strength and stiffness of carbon fibre - with a safe working load of 150kg.
- Autoclave cure at 5 bars of pressure and 120C provides ultimate toughness.
- Aesthetics of slick design and superb high gloss finish.
- Supplied with accessories such as a set of wheels for the jetty side and white, non-marking rubber buds for the deck side.
- Safe non-skid surface painted in any colour to match your boat, or classy clear tread.
- Upon receiving your boat sign sticker with the boat's name, we will apply them to the Gangway free of charge.

Additional extras:

- Custom patterns and logos for non-skid surface and painted signs.
- Teak decking applied to the Gangway's top surface.

Recommended Retail Price \$3,300 including GST ex-works.
